The CINE PRO is a large dimension electrical screen available from 8 mt. up to 12 mt. of width.

Cine Pro is the best choice for cinemas, theatres or auditoriums. It assures the possibility to join the need to have projections and the alternative to play a performance on a stage.

The Cine Pro structure is equipped with an aluminium tube which is, at the same time, rolling pipe and bottom bar.

The capstan electric motor unit which is located in the middle of the structure, transmits, by the steel cables, the rotation of the winding pipe determining the rolling up or the descent of the cloth in a quiet and safe way.

The Screen Int. R&D department has developed a new and unique SAFETY SYSTEM that prevents eventual rolling down of the aluminium tube, in case of accidental failure of the motor or of the steel cables or of the cloth.

Available in bespoke sizes.
Screen housing available also in black colour (optional)

INCLUDED

Ceiling mounting brackets
n.1 On/off switcher

OPTIONAL pag 62-63

Kit RF Remote control with external receiver
Interface switch 12 volt
Low voltage contact interface
**CINE PRO CLOSED**

Hoist group motor

Ceiling mounting bracket

Lifting rings

**CINE PRO OPEN**

- Motor Characteristics:
  - Power: 85 Nm
  - Speed: 17 rpm
  - Power supply: 230V / 50 Hz
  - Consumption: 450 W
  - Certification: IMQ

**CEILING MOUNTING BRACKETS**

**NOTE:** The left and the right anchoring points have to be fixed at the same distance from each end side of the cabinet. The fixing distance has to be maximum 50 cm from left and right end sides of the cabinet.
